**“Dark Money. Clean Money. Can an Ethical Candidate Compete?”**

Friday, March 8th

**Register for the webinar**

Campaign finance regulations define the way

candidates and voters experience elections. While the presence of “dark money” turns many would-be candidates and voters away entirely from the electoral process, what is clean money, and what options do candidates have when it comes to running a “clean” campaign? Is it possible to run ethically and competitively? What is the state of campaign finance reform in California and more broadly? Tune in for a conversation featuring one of the nation’s preeminent experts on campaign finance, former Obama-appointed FEC Commissioner, FPPC Chair, and star of documentary “Dark Money,” Ann Ravel. Joining Ann will be experts from around the state.
