Isn't this what we need?

Did you see the [NY Times piece on Sunday?](#) **More proof that women add value... as if we didn't know that already.** CA women legislators have authored new laws in 2014 that provide mandatory paid sick leave, address sexual assault on college campuses, permit restraining orders on gun owners, expand campaign finance reporting and require greater disclosure of water use by oil producers. close the gap CA is a statewide campaign to find talented, progressive women to run for open seats in the California legislature in 2014 and 2016. With focus and a targeted strategy, we can 'close the gap' and not just the gender gap. When we elect progressive women, we take steps to close the school funding gap, the access gap to affordable health and reproductive care, and the growing gap between the wealthy and those in poverty.
