

close the gap CA

One year ago, only 1 in 5 CA legislators was a woman. By day's end tomorrow, we could be closer to 1 in 3. This is tremendous progress in a remarkable year.

Progressive women in our target districts are positioned to take as many as 7 more seats tomorrow in the Senate and Assembly, 6 of which are currently held by men. Their victories will continue the decisive march to gender equality begun last winter, with the special elections of 3 new women legislators since.

Keep your eyes on our impressive CTGCA recruits and allies in these target districts:
