Did you know that a decade ago women were 30% of the California legislature? Today women are only 25%

In 2003, women of color accounted for 44% of the women legislators. Today only **one** woman of color serves in the CA State Senate.

We can change this. And we know how.

close the gap CA is a statewide campaign to find talented, progressive women to run and win seats in the California legislature in 2014 and 2016. With focus and a targeted strategy, we can "close the gap"™ and not just the gender gap. When we elect progressive women, we take steps to close the school funding gap, the access gap to affordable health and reproductive care, and the growing gap between the wealthy and those in poverty.
